PERRY FREED OF MURDER CHARGE

CITY OF FLINT NEWS CHAOTIC; REPORTS VARY

Reported To Be Near
Norway, in Russia;
Few Details

Moscow, Oct. 28.—(AP)—Tass, Soviet official news agency reported the American freighter City of Flint had sailed tonight from Murmansk after repairing her engines.

The brief Tass report failed to say whether the freighter was in command of the German prize crew which brought her into the north Russian port last Monday or whether the American crew still was aboard.

Berlin, Oct. 28.—(AP)—German authorities reiterated tonight that the seized American freighter City of Flint was enroute to "some German port" from Murmansk, although the United States embassy said it had been informed earlier the vessel still was at anchor in the Russian harbor.

"Informal" Advice

United States Charge D'Affaires Alexander Kirk said he was advised informally by the German government this morning that the freighter was at Murmansk, where she was carried by a German prize crew early this week.

Kirk said, however, he had been given no further details at that time and that he had received no later information since then.

(The state department in Washington received a report from Kirk that he had been advised by the German foreign office that the ship was in the Soviet port and that the American crew still was aboard. He said also that he was told that if after completion of repairs the ship were taken to another port, the crew presumably would be kept aboard to operate her.)

German officials told foreign correspondents late this afternoon—as they did at two conferences yesterday—that the German prize crew which carried the City of Flint to Murmansk was bringing her to Germany after Russian permission had been granted for her to leave. Further information was declined.

Ordered to Depart

(In a report to the state department from Moscow yesterday, United States Ambassador Laurence A. Steinhardt quoted Soviet Vice-Commissioner of Foreign Affairs Vladimir Potemkin as saying that when the Soviet government judged the vessel fit to put to sea it had ordered her to depart immediately, with both the American and German crews aboard.

(Steinhardt said Potemkin added that the order would be enforced immediately. The state department has had no word from the ambassador that this was done.)

No German officials could be reached tonight to explain the contradictory reports of the whereabouts of the freighter, which was seized because she carried a cargo the Germans said was contraband.

One government spokesman said it would be impossible to make a further check tonight.

The German press headed a Soviet communique announcing the German prize crew had been instructed to leave Russian waters with this caption: "Captured U.S.A. ship City of Flint leaves Murmansk."

INDIAN VISITING

Washington, Oct. 28.—(AP)—The Palute Indians of California know what to do about visiting relatives. The Indian office disclosed that a provision in the constitution of the tribe says:

"Visits from relatives or friends of those having residence on the reservation shall be permitted, but shall be limited to 14 days at any one time, and shall not exceed 30 days in any one calendar year."

Weather

For Jacksonville and vicinity: Fair and warmer today; generally fair and colder tomorrow.

The Norbury Sanatorium, cooperative observer for the U. S. Weather Bureau, last night gave temperatures at high 48, low 31 and at 6 p. m. yesterday: 36.

Illinois: Fair in south and central portions, partly cloudy in extreme north, warmer Sunday; Monday generally fair and colder.

ANOTHER MISHAP

For Byrd Expedition's
Big Snow Cruiser

Lima, Ohio, Oct. 28.—(AP)—A 75,000-pound snow cruiser built for the Byrd Antarctic expedition lay on its side in the bed of a small stream tonight, victim of another mishap in its crawling progress from Chicago to Boston.

The 55-foot-long vehicle struck a bridge corner, crumpled a guard rail and slid about eight feet down a bank into the bed of Pine Run near here.

Seven crew members and several hitch-hikers jumped to safety. Crewmen planned to build a runway to carry the cruiser back to the road.

The vehicle, built in Chicago, is being driven to the east coast to be shipped to the Antarctic for use by Admiral Richard E. Byrd. Several delays due to weather, traffic hazards and mechanical difficulties have beset its trip.

FRENCH TROOPS' RELEASE FROM FRONT PLANNED

100,000 To Go Home;
Report Sinking Of
Nazi Submarine

Paris, Oct. 28.—(AP)—Despite indications of an imminent German offensive on the western front, the French government published an order today which was expected to release 100,000 men from war service.

The order provided that many older men and those of any age who have four or more children may return to their homes.

It followed an unofficial report that the French had sunk a German submarine, apparently in the North Sea, although the location was not specified. The report was given some support by a semi-official announcement that French vessels and seaplanes had carried out several direct attacks on U-boat bases.

At least has been successful.

Military sources said the report was strengthened further by the finding of six bodies off the coast, establishing proof, they said, of destruction of the submarine which "apparently had been literally torn apart by the explosion of a depth bomb."

Five Sailors, Officer

The bodies were those of five German sailors and an officer. Four of the bodies were picked up off Dunkerque by a fishing vessel; the other two were washed ashore.

They appeared to have been in the water only a short time. Military commentators said the French destroyed an enemy submarine Thursday.

The United States Senate's repeal of the arms embargo was declared unofficially here to be a step toward correcting what was called an international wrong caused by Soviet Russia's economic aid to Germany.

French military authorities consider France has almost too many men under arms. They explained it was obviously necessary to put surplus manpower to work producing rather than maintain them under arms where they are only consumers.

(Pre-war estimates were that 1,500,000 men were sufficient to man the Maginot line, the only land front to date. Experts estimated—also before the start of the war, and no figures have been made public since then—that complete mobilization would put 8,000,000 men under arms.)

Suspected Diamond
Thief Is Captured

Philadelphia, Oct. 28.—(AP)—A well-dressed man who detectives said attempted to walk off with a tray of 19 diamonds valued at \$10,000, was captured today in a scuffle outside a jewelry store.

Detectives August Miller and John Clark said the man was tackled by Louis Neff, a college athlete, who happened to be passing and noticed the jeweler, Josef S. Milner, hammering frantically on the window.

The man, protested vehemently that he was considering a purchase. In his pocket was a bus ticket to Atlantic City.

Police searched him without finding the diamonds. They were found a few minutes later in a store waste basket.

The man was booked as George Brown, 40, of Springfield, Ill., on a charge of attempted larceny.

GHOST WRITER

Clemson, S. C., Oct. 28.—(AP)—There is a growing suspicion around Clemson that four-year-old Mary Neely has a ghost writer. She won second prize in a football-score guessing contest last year.

Trumbull, Conn., Oct. 28.—(AP)—The state of Connecticut, after building a \$50,000 railroad bridge over the \$25,000,000 Merritt super-parkway to New York, now finds that no trains ever will run over it.

Since the bridge, located on the Berkshire division, was completed under an agreement with the New Haven railroad, the public utilities commission has ordered that no trains ever will run over it.

Hoosier Aviator Confesses Slaying Flying Instructor

"Aerial Lochinvar" Last June Took Young Girl on Wild Ride in "Borrowed" Plane; Arrested Near Bloomington, Ind.

Indianapolis, Oct. 28.—(AP)—Indiana State Police Superintendent Don F. Stiver announced tonight Ernest Pletch, Hoosier aviator, had confessed to the slaying of Carl Bivens, 38-year-old Missouri flying instructor.

Stiver said the 29-year-old Frankford, Ind., flyer admitted "shooting Bivens in the head while the two were flying in the airplane near Cherry Box, Mo."

The confession, the state police head, said was made orally after slightly more than two hours questioning. Pletch landed the yellow monoplane in which he and Bivens left Missouri yesterday near Bloomington, Ind., late today.

Earlier today Pletch was seen flying over the home of his parents and made a landing at Royalton (Boone County) before flying southward to Monroe County.

State police captain Walter Eckert related that Pletch "took an aviation piloting lesson here about two weeks ago and gave a fraudulent \$10 check in payment for it."

He is being held on a technical charge for Missouri authorities. Bivens' body was found near where electrification administration workers erecting a power line said a yellow monoplane landed yesterday afternoon.

Sent For Gasoline

The workers said there was only one man in the plane then. The pilot sent one of the workers to Cherry Box for a gasoline tank. When the truck came he filled up his tank and took off.

The body was in such a position it was not possible to tell immediately how Bivens had been killed.

Find Passenger Dead

A few hours before Pletch made the forced landing the body of Carl Bivens, 38-year-old flying instructor who vanished as a passenger in a yellow airplane Friday, was found in a thick

HOUSE TO USE RARE STRATEGY ON NEUTRALITY

Embargo Repeal Focus
Will Fight Rubber
Stamp Action

Washington, Oct. 28.—(AP)—Seldom-used parliamentary strategy was put in readiness tonight to slide the administration's neutrality bill through the House without change next week.

The House without change next week will militant foes of arms embargo repeal served notice that they would not serve as a "rubber stamp."

Administration leaders expressed confidence that they had the strength to steer the measure safely through, some placing the margin of victory as high as 50 votes. However, Representative Fish (R-N.Y.), leading the fight for retention of the embargo, hotly contested such claims. He asserted there was a good chance to reverse the verdict of the Senate, which passed the bill containing the repeal last night.

Major Battle Assured

Whatever the outcome, a floor fight of major proportions appears assured when the House leadership tries to start its carefully-gear machinery to prevent any amendment of the Senate bill.

Speaker Bankhead announced that the leadership would move to send the bill to a joint Senate-House conference committee to compose the wide differences between the measure approved by the Senate and that which passed the House last summer. The chief difference is that the House bill provides for a modified embargo. It would prohibit the shipment to belligerents of arms and munitions, but not such "implements of war" as airplanes.

Under the procedure outlined by Bankhead, it appeared the only chance the House would have to change the Senate bill would be through the device of instructing the House conferees as to what should be written into the final draft. However, the speaker made it plain the leadership was confident it could prevent such action although he asserted he would let the opposition try it.

Fish told reporters he would make that attempt but declared he had other tricks in his bag he would try first.

USELESS BRIDGE

Trumbull, Conn., Oct. 28.—(AP)—The state of Connecticut, after building a \$50,000 railroad bridge over the \$25,000,000 Merritt super-parkway to New York, now finds that no trains ever will run over it.

THE WRONG GADGET

Makes Plane Land in the
"Parlor" of Chicago

Chicago, Oct. 28.—(AP)—A tiny plane fluttered in through Chicago's bay window and landed in the city's parlor today because a woman passenger fiddled with the wrong gadget.

The plane, its motor dead, was set down in Grant park along the lake, miles from any airport. It carried Pilot David H. Bishop of Chicago and Miss Gale Scott, 22, of Beverly Hills, Calif.

Miss Scott told police she turned an apparatus she thought was a window fastener so she could lean out to take some pictures, but discovered too late the gadget was a gasoline line cut off valve.

Park authorities cleared a neighboring football field of players and spectators to let the plane take off.

GERMAN PLANE IS SHOT DOWN OVER SCOTLAND

Spectacular Battle In
Sky Is Witnessed By
Hundreds

London, Oct. 28.—(AP)—A large German reconnaissance plane apparently seeking information on Britain's great naval base at Rosyth fell victim today to the Royal Air force in a spectacular sky battle witnessed by hundreds of Scots.

Two German airmen were killed and two captured when the German plane was forced down east of Dalkeld, about six and one half miles southeast of Edinburgh.

The invading plane seemingly was seeking the strategic Firth of Forth and the Rosyth base, objective of previous Nazi raids.

In announcing the air battle, the air ministry also said British airplanes carried out successful reconnaissance flights over certain areas in southern Germany last night and all returned.

British fighting ships intercepted the German airplane. As hundreds of Scots watched from the ground, the planes zig-zagged across the sky with the invader desperately trying to shake off its pursuers.

"Finally the German plane came down on a hillside and struck a stone wall and even then the pilot would not give up," one witness said. "He tried to get his machine into the air again and ran along the rough ground for about a half mile before he had to stop."

Two of the Germans in the plane were found dead, another was wounded and taken prisoner with the uninjured pilot.

Alarm sirens were sounded in the Firth of Forth followed by an all clear signal in half an hour.

An air raid warning also was sounded in the Orkney Islands which surround the Scaapa Flow naval anchorage but the invading plane was reported to have been routed.

LIBRARY ASSOCIATION

Peoria, Ill., Oct. 28.—(AP)—Delegates to the Illinois Library Association selected Chicago for the site of the 1940 convention at the closing session of the annual meeting today.

Nathan Levine of Chicago was elected president. Other officers elected were: Miss Elizabeth Curry, Kewanee, vice president; Ambrose Wetherbee, Springfield, secretary; Wayne Yenawine, Champaign, treasurer; and Dr. Carlton B. Joekel, Chicago, a member of the executive committee.

SECTION HAND KILLED

Kankakee, Ill., Oct. 28.—(AP)—Frank Crozier, 50, a section worker on the Illinois Central railroad, was killed when his handcar was struck by an automobile at a crossing in the village of Donovan today.

Meanwhile, highway employees removed hundreds of rural speed limit signs and moved town corporation limit signs closer to residential areas. State engineers said that by having fewer regulatory signs, they believed motorists would pay stricter attention to those left. The move, they said, was made in the interest of safety.

In the rural zones, formerly posted with 45-mile signs, motorists will be permitted to use their own discretion as to speed, but excessive rates, Williams warned, would be considered reckless and those too much in a hurry would be arrested.

Speed signs under the state's new policy will set the following limits in varying with traffic conditions:

Residential zones, 30 to 40 miles an hour; business districts, 30 to 40 miles an hour; rural zones, 40 to 45 miles an hour; and through highways, 45 to 50 miles an hour.

POLICE, CZECHS CLASH IN FETE FOR 'REPUBLIC'

Germans In Trouble
As People Riot In
Prague Streets

Prague, Oct. 28.—(AP)—An undetermined number of Czechs and Germans were reported wounded tonight in violent clashes resulting from demonstrations in observance of the twenty-first anniversary of the Czechoslovak republic.

Reports persisted, but without confirmation, that four persons had been killed.

Shots were heard in various parts of Prague. The demonstrations increased in violence until midnight when the crowds began to disperse gradually.

Once the disorders subsided police began to relax some of the security measures to enforce the Nazi ban on public observance of the national holiday.

Streets blocked off earlier in the day were reopened, but heavily armed police continued to patrol the main thoroughfares.

Wounded in Hospitals

Although German police and storm troops had clashed with patriotic Czechs during the day, first reports of shooting came tonight. The wounded were said to have been taken to two hospitals.

Authoritative figures were lacking on the number of persons arrested during the day, but unconfirmed reports said the total ran into the thousands.

With the heart of Prague sealed by the police, demonstrations shifted tonight to the more outlying squares and streets.

German authorities, including many mounted officers, cooperated in an attempt to control the crowds.

The majority of the demonstrators wore national colors and the earlier clashes took place on main and side streets leading to Wenceslas square in the heart of the city.

Three clashes occurred at Wenceslas square, which was an especial mecca for the Czechs from early morning because a statue of the city's patron saint, Wenceslas, is located there. It had been roped off early in the morning as part of the ban on public demonstrations.

A group of youths, wearing so-called Masaryk caps (named after Thomas G. Masaryk, co-founder of the republic) to indicate their sympathies, attempted to enter the blocked off square at about noon but were driven back.

Change of "Cries"

As the incident developed, Communists began shouting "Long live Stalin," but their shouts soon were drowned out by cries of "Long live the republic."

In midafternoon crowds again broke through the police cordon. Before Hotel Srebek, located on Wenceslas square, seamen (brown-shirts) attempted to rip off patriotic insignia worn by the demonstrators.

The Czechs fought back and the German police were reinforced by Czech state police. One Czech policeman was among those arrested.

A third fight developed late in the afternoon and more arrests were made by police patrols of the national Aryan front and by mounted police.

In the square at suburban Weinberg, Czechs called out "We want liberty" and "Long live the Czechoslovak republic, away with the Germans."

Quiet observances of the day were held in other cities of the Bohemian and Moravian protectorate despite the German ban.

(The Czech provinces of Bohemia and Moravia passed under German rule last March following the Munich pact of Sept. 19, 1938, which began the partition of the republic.)

A WARY CITIZEN

Washington, Oct. 28.—(AP)—A citizen who chanced upon four men furtively changing the license tags on an automobile in an alley phoned the police. The four men—and the blues—were surprised. It seems the four were narcotic agents out on an investigating expedition and substituted New York plates for North Carolina tags to fool (they hoped) their quarry.

SINGING CANARY

Roswell, N. M., Oct. 28.—(AP)—Jerry, a canary owned by Miss Elizabeth Garrett, author of the New Mexico state song, has learned to sing popular songs in the correct keys.

Miss Garrett, who trained him, plays the accompaniment on the piano.

WINTER TRAINING

Chicago, Oct. 28.—(AP)—Lieut. Gen. Stanley H. Ford, commander of the Sixth Corps area, said today that troops in his area would participate in winter field training for the first time in several years as a result of the new equipment and tactics.

Jury Gets Verdict After Nearly Four Hours Deliberation

Harry E. Perry, 68, charged with the murder of Mrs. Josie E. Shawen, 56, W.P.A. seamstress, was found not guilty of the charge just before midnight last night, by a jury that had considered the case less than four hours. Deliberation of the verdict began at eight o'clock last night and the jury, which consisted of eight men and four women, returned into the circuit court room about ten minutes before twelve o'clock and the decision was announced before a crowded

As a result of the jury's decision, Perry, who has been held by local authorities since last July 6, left the court room a free man. He was arrested on the morning of July 6, a few hours after the murder was said to have been committed at the home of the victim on West Court street, and had been held by city police or county authorities since.

Mrs. Shawen was found brutally murdered at her home on the morning of July 6, at her home, by her daughter-in-law, Mrs. Wiley Shawen. Evidence presented at the hearing indicated that the murder took place between 9:30 and ten o'clock on the evening of July 5. Perry said that he was at the home of his daughter, Olga Perry, several blocks distant at that time. The daughter substantiated the defendant's testimony. The state introduced witnesses at the trial to prove that Perry was seen in the vicinity of Mrs. Shawen's home when the crime is said to have been committed.

Begin Deliberation

The jury began deliberation of a verdict at eight o'clock last night. Four rebuttal witnesses were heard, the concluding arguments were made by the attorneys in the case, and Judge Walter Wright read the instructions at the afternoon session which ended at 6:50 o'clock. The jury was taken to supper at seven o'clock and an hour later came back and began deliberation.

Announcement that they had arrived at a verdict reached the court room at 11:45 and a few minutes later the jury was brought in. Judge Walter Wright warned the room full of spectators that there must not be any demonstration in the case and then asked the jury if a verdict in the case had been reached. Fred J. Scholfield, foreman, announced that a verdict had been reached and handed it to the deputy sheriff, who gave it to Deputy Circuit Clerk Frank Kennedy, who was told by Judge Wright to publish the verdict. Reading the verdict the deputy said, "We, the jury find the defendant not guilty."

The jury was then discharged and immediately the defendant and members of his family went to the jury box to thank the jury members. Perry was permitted to leave the jury room a free man.

Members of the jury were Alvin Wessler, Mrs. Bessie Glinder, Frank Worrall, Mrs. Addie Jones, George Wackar, Mrs. Edith Long, Mrs. Kenneth Woods, Carl Ore, Fred J. Scholfield, P. W. Paul, Clarence Ratachak and Roy Covington.

After giving direct testimony for a short time Perry underwent a fifty-five minute cross-examination at the Saturday morning session in circuit court here. He had testified for an hour Friday afternoon before court adjourned for the day. His testimony was followed by rebuttal witnesses and the arguments followed. State's Attorney Oscar Zachary and Edward J. Flynn spoke 30 minutes each for the plaintiff and they were followed by Defense Attorneys Ray Grunty and Hugh Green, who spoke for an hour each. Carl E. Robinson, attorney for the prosecution, concluded the arguments with an hour's argument.

The prosecution charged that only one witness for the defense had placed Perry away from the scene of the crime, when it happened, and that was Olga Perry, the defendant's daughter. They charged Perry was motivated in the brutal slaying by jealousy. Mrs. Shawen was shot, her throat was cut and her head crushed on the evening of July 5.

The defense claimed the prosecution had failed in an effort to place the defendant at the scene of the crime, that they had not produced the knife nor gun used in the murder. The state's testimony was characterized as the "flimsiest" of circumstantial evidence.

Arguments Start

The arguments in the case started at two o'clock and two hours were consumed in reviewing the case by attorneys on each of the two sides of the case. State's Attorney Zachary made the opening argument, reviewing the testimony of state's witnesses. He started by discussing the evidence presented by Mrs. Leta Crouse, daughter of Mrs. Shawen, and the state's first witness.

The Limit Should Be Fun

Tuesday night in Jacksonville will be a lively one—Halloween always is featured by a parade of masked and costumed characters, parties and other special events. The young people of this community should enjoy themselves to the limit—but the limit should be fun.

There is vast difference between having a good time, and damaging or destroying property. Most boys and girls recognize the difference and are content to hail the spirit of Halloween with innocent stunts. The ones who permit their judgment to lapse often get into trouble that proves embarrassing if not costly for themselves and their families.

A few years ago a group of boys started out to celebrate Halloween by playing pranks that everyone expects on that night. But before the evening was over they destroyed considerable property. It was not surprising that an investigation followed, which resulted in the boys being arrested and arraigned in juvenile court.

There was much remorse on the part of the boys and their parents. The boys were sorry they had committed the offenses; their parents regretted deeply that they had not kept closer check on their sons on Halloween

night. But the damage had been done. The parents had to dig down in their pockets to pay for property destroyed, and the boys were placed in charge of the court for a specified period. It could have been even worse. Parents and young people should remember that Halloween night does not give anyone license to damage or destroy property. Parents should be certain their children are celebrating in harmless fashion. Boys and girls should bear in mind that violations on their part fall not only upon their shoulders but upon their parents. Boys and girls should keep their state clean on Halloween night. They want to look back on such celebrations with pleasant memories, not with fear of arrest and prosecution for something they wouldn't think of doing any other time.

1,440 Pounds Apiece

The ways of the statisticians at Washington are sometimes beyond belief—as when they tell us precisely how much each of us earned last year and what we spent it for—but there are other times when their infinite wisdom fills us with comfort.

Having figured it out that the normal food requirements for each person in the country are 1,440 pounds a year—almost 3 pounds a day—the statisticians bring the reassuring news that food stocks now in hand or in sight will more than supply the table of even our heartiest eaters. A minimum diet for the normal adult, we are told, would require from three quarters of a pound to a pound of lean meat or poultry every week. German meat rations now allow but a pound a week. But the United States supply for 1939-40 would give every citizen three pounds a week, "even the toothless infants."

The minimum diet calls for two eggs a week; the supply here would be adequate for six. For bread, Uncle Sam has more than 200 pounds of wheat ready for every niece and nephew, to be buttered with 17 pounds of butter. The potato crop can fill a sack with 135 pounds for every one, with a 25-pound bag of sweet potatoes in addition. The imported beverages, tea and coffee, arrive in quantities to give everyone a year's supply amounting to 13 pounds of coffee and almost one whole pound of tea.

The American diet has shifted away from sugar and toward fruits and vegetables in recent years. Fruit growers can offer every inhabitant almost 150 pounds. There are increased supplies of all vegetables, fresh and canned, for which demand has increased.

Possibly the statisticians' inventory will be cold satisfaction to the many who for one reason or another do not get their 1,440 pounds of food a year, but one thing it does abundantly prove—there is no shortage of food, present or visible in the future, in this country.

The Firth of Forth

A target for Nazi bombers on several occasions recently has been the Firth of Forth bridge, which makes this famous span of much interest now.

The Firth of Forth, the estuary of the Forth river, is a wide indentation in the eastern coast of Scotland its shore line generously flecked with busy cities and quiet towns, many of which are linked by rail or highway with Edinburgh, most important of the cities in this region. At its mouth it is 12½ miles wide, at Edinburgh, five miles.

The Firth bridge which is reported to have been one of the main objectives of destructive German aerial bombs is a steel three-span structure more than a mile and a half long which cost more than \$10,000,000. It was under construction for seven years and was completed in 1890. The bridge spans the Firth of Forth about 25 miles from its mouth at the North sea and about seven miles inland from Edinburgh.

Edinburgh, in whose streets residents are reported to have picked up pieces of shrapnel, is on the south shore of the Firth of Forth. Capital of Scotland, with a population of 439,000, it is a lure to enemy attack. It is called the "Athens of Scotland" because of its numerous educational institutions, museums, art galleries and libraries.

SMALL TALK

Good morning. It seems Nelson Eddy has developed into one of our best sources of contributed argument. We get a letter which knocks Mr. Eddy a bit, and pretty soon some loyal fan rises to the blond singer's defense. A short time ago a contributor expressed disapproval of Eddy's interpretation of "Little Gray Home in the West." We thought, ah, it won't be long now. Sure enough, the morning mail brought us this note.

Small Talk Editor:
I noticed in your column of a few days ago some adverse criticism of Nelson Eddy. Why some people take a fiendish delight in wrongly criticizing others in a mystery to me. But when they turn those same criticisms on such a swell person as Nelson Eddy, then something has definitely got to be done about it.

For instance, they quite cleverly (?) mentioned his rendition of "Little Gray Home in the West." Now, Nelson Eddy has spent time, labor, and money to develop his voice, and yet some person whose highest likes are probably for twangy hill-billy songs comes along and with one cutting remark belittles both Eddy and his singing. Such persons should be put in a place of their own where they can growl and fret about people as much as they choose.

Nelson Eddy accomplishes more with his quiet charm and graceful ease of manner than all the "Colgate" smiles of the dark, handsome, glamorous boys. He can bring tears to your eyes, smiles to your face, joy or sadness to your heart, merely by the singing of his different songs. If these same people can listen to Nelson Eddy's interpretation of Nevins' "The Road" without some feeling, then I must say they must be inhuman.

If Nelson Eddy were not better than just good, then why is he the top ranking star in Hollywood today? Why do people pay large sums of money to attend his concerts? And why is he one of the most popular singers on the radio now?

Thank you, Small Talk, for giving

\$4.00 Silk Dresses \$2.98 EMPORIUM

me the opportunity to express myself.
Yours very truly,
Smiley.

You're very welcome, and thank you. We're glad to have any expression on such an apparently controversial matter as Mr. Eddy. We've listed our own opinion of the gentleman so many times we won't bother with it today. Anyway, there is what one person thinks. Do we hear any backfires, or is the subject of Nelson Eddy closed for the present?

Yesterday's remarks on Henry Jackson were written before his concert Friday night. Certainly, his sense of humor was evidenced at that time. During one of his three encore numbers, two of which were brilliant musical satires, he came to a pause. The audience, which had been enjoying the thing immensely, started to applaud. But the place wasn't over. Jackson smiled, shook his head in mock disapproval, and went right on playing. At other times, Jackson could be seen to grin at various audience reactions. He was having a swell time, and so was the huge crowd that turned out to hear him.

Congratulations to the Jacksonville high school students for their fine homecoming. The parade was the best high school parade seen here in a long time. The kids showed the proper spirit and plenty of it. The Thursday night snake-dance was something of an innovation for the Crimson lads and lassies, too. Dear old J. H. S. is really on its toes this year. Too bad about the homecoming game. But that was just one of those things.

Incidentally, the high school Herald is picking up and improving by leaps and bounds. It's a very snappy school newspaper now, one of which the institution can well be proud. It's well printed, attractive to look at, and "readable" to read. All of which says a lot for the members of the staff, and for their adviser, Miss Margaret Moore.

Well, we came to the end of that sheet of copy paper before we knew we were anywhere in the vicinity. A combination of circumstances—it's a new batch of copy paper, and we are using the typewriter with the larger-than-ordinary type. Anyway, wishing you a very happy Sunday or Monday, as the case may be, we shall fold our tents like the Arabs and as silently steal away. Complete instructions for folding a tent like an Arab will be sent upon receipt of five column tops and a brief slogan of not more than 5,000 words, or a reasonably accurate facsimile thereof, on how to.... just how to.
See you Tuesday.

25,000 Bushels Of Sealed Corn Being Put in Steel Bins

Twenty Metal Cribs Erected Here Will Contain Part Of Surplus Crops

More than 25,000 bushels of government-sealed corn is being stored in steel bins in the southeast section of the city. The bins have been erected along the Burlington right-of-way by the Davenport Elevator Co. for the government, and Walter Davenport is supervising the shelling and storing of the corn. Ten of the 20 bins have already been filled. Each bin holds approximately 1,300 bushels.

The bins are erected on foundations of brick or concrete built at least four inches above the ground. The space inside the foundations is filled with sand, and on this the steel floor is laid. This floor is of sheet steel; the sides of the bins are corrugated.

The corn being stored in this manner is from the 1937 and 1938 crops. It has been under seal in cribs on farms in Morgan county pledged to the government for loans made to the farmers. It was learned yesterday in an interview with a grain expert that the 1938 corn is in good shape, but that a small portion of the 1937 surplus is infested with weevil.

It is possible to treat this damaged corn so that it can still be used. The grain storage being carried out here is in line with the "ever-normal granary" program which has been advocated by Secretary of Agriculture Henry Wallace.

Miss Cocking Gives Report at Chapel Service

The Y.W.C.A. of MacMurray college opened the chapel service with the reading of a poem, "Gods Dream" by Winona Cocking. Miss Cocking then told of the conference, which she attended last summer in Berea, Kentucky stating that she was particularly impressed with the fact that there was a mingling of the different races on an equal basis. It was evident that young people are interested in religion.

Pauline Newton played the postlude and there was an impressive selection throughout the entire selection.

Leo Bouska Heads Jersey Farm Group

Select Delegates to Various Conclaves of Farm Groups; Officers Elected

Jerseyville—Leo Bouska was again elected president of the Farmers Institute of Jersey county at the annual business meeting of the organization held Thursday, October 26th at the court house in Jerseyville.

Other officials elected were: vice-president, Ben J. Kallal; and secretary-treasurer, C. T. Kibler. Members of the board of directors are: F. E. Fulkerson, Lawrence F. Morrison, Virgil Searls, W. L. Sinclair and John Kirach.

Delegates to the State Institute to be held in February in Decatur were

chosen as follows: Leo Bouska, B. J. Kallal and L. F. Morrison and alternates selected were: Virgil Searls, John Kirach and W. L. Sinclair. In the Household Science section of the institute the following officers were named: president, Mrs. Paul Chapman, Jr.; vice-president, Mrs. Lee Nall; secretary-treasurer, Mrs. George French.

Mrs. Chapman and Mrs. French will be delegates to the State Institute held in conjunction with the Farmers' state meet in February.

A large number of farmers made the tour of the farms of L. F. Nall, Tony Meyers and P. W. Chapman, Jr. Thursday morning where different phases of hay production, feeding and management, and equipment were studied.

John B. Rice opened the afternoon session at the court house in Jerseyville in the afternoon, discussing "Swine type as it affects the producer, distributor and consumer." The speaker was formerly chief of the Swine Department of the University of Illinois.

H. G. Russel, livestock extension specialist from the University of Illinois, spoke on the market situation and future outlook for hog, production and marketing.

Mrs. E. P. Lumpkin of Carlinville, who was the guest speaker for the Household Science section, had a large display of old glass with her. She spoke on "The Romance of Old Glass."

Miss Clara Spark, state supervisor of Vocational Home Economy, addressed the group on Trends in National Home Economy in the afternoon. She spoke to the Home Economics girls of the Jersey Township high school that morning, making her official visit to the department at that time.

Ivan E. Paret Is Making Plans For State Husking Bee

Former Morgan Adviser Does Big Job in Vermillion; Aims at Record

When corn huskers from all over Illinois and thousands of visitors to the state husking contest assemble in Vermillion county Monday for the big event, they will find everything ready for their comfort, convenience and entertainment. Back of the preparations, which have required an enormous amount of work, is Ivan E. Paret of Danville, Vermillion county farm adviser.

viser in this county and went from here to Vermillion. Due credit is given him for engineering the elaborate plans for the husking contest by the Danville Commercial News, which has the following to say of his work:

"A big share of the work in preparing for the Illinois State Corn-husking contest next Monday has been on the shoulders of Farm Adviser I. E. Paret.

"When Dave Thompson of Prairie Farmer walked into the Farm Bureau office last spring and told Paret that Vermillion county's application for the state contest had been accepted, he also mentioned that it would mean considerable extra work for the farm adviser.

"Well," Paret said, "we've got an unusually heavy schedule this year. But we certainly like to have that contest. And I guess there's no question but that we can find the time to give you about the best contest you've ever had."

Aims at Records

"That's been Paret's aim all summer. His big ambition has been to have the best state contest in Illinois' history. He would like to see the biggest crowd in state contest history, and he'd also like to see a new state husking record set.

"He moved ahead most of his summer's work, and spent many busy evenings so that he would have more time for preparing for the contest.

ence pertaining to the contest is handled by the farm adviser through the Farm Bureau office. When committeemen are to be notified of meetings, or of their work, then he dictates the letters.

"And when committeemen want to know more about the work that has been assigned to them, or probably more details of their work, they seek his advice.

"He has worked without a vacation this year because he didn't have time to take one. One week-end he visited his former home near South Bend, Ind. A farm adviser's days in Vermillion county are unusually well filled. But, with the county and then the activities, then the farm adviser's days are more than filled.

"When this contest is over," he said last week, "I'd just like to take a week and do nothing but restup."

The Papers That Serve Your Interests—Better!

He's an old-timer. He remembers the Panic of '93. When Dewey was victorious at Manila Bay, he was in the crowds that whooped it up with some high-wide-and-handsome celebrating. Teddy was waving the big stick while he, and men like him, were leading heated discussions around cracker barrels up and down the country. Yes, and he can remember when it took days to make a trip that modern autos and paved roads have shaved down to mere hours. You'll find lots of old-timers around town. They recall some of the difficulties of shopping, too. When buying a "gold brick" seemed to be an inseparable part of a good many transactions. suit will hold its press as well as Hart Schaffner & Marx says it will"

Pretty soft for the fellow testing this suit! For the real testing of a Triple Test takes place long before it ever leaves the Hart Schaffner & Marx shops. And what tests these suits of ours have to go through before they're awarded their Triple Test labels!

First they have to pass innumerable tests for Wear! And the experts who supervise these stringent operations are deadly at spotting poor fabrics.

Next comes the Style test, which assures authenticity of color and pattern. Finally Triple Test must pass the Value test—made by clothing merchants who say "no" oftener than "yes."

Thus Triple Test gives you a positive O.K. on the three points—Wear, Style and Value—that are uppermost in your mind when you're in the market for a suit. And the marvel is that Triple Test delivers these three to you at a moderate price!

Report Oil Found On Pearce Farm In East Jersey County

Samples Taken to Laboratory for Test; Strike Made At 1,304 Feet

Jerseyville—Oil was struck Friday morning October 27th, in well No. 1 on the Grover Pearce farm eight miles east of Jerseyville according to reports brought to Jerseyville shortly after the strike was made.

The well is known as E. N. Gould & Sons, Grover P. Pearce No. 1. Immediately after the strike was made at eleven o'clock Friday morning, E. N. Gould took samples and started to Urbana where he would have a test made of the fluid at the laboratories of the University of Illinois.

According to parties interested in the project, the drill struck the oil bearing sand at 1204 feet level. Drilling was halted and samples taken for Gould to take to the state laboratory. The strike was made in the Trenton strata according to reports here, and oil men who have been in on other strikes in recent years expressed the opinion that a real well may be brought in on the Pearce farm within the next several days.

The well on the Pearce farm is the first one to be drilled by a syndicate organized last winter by W. E. Harris and known as the Jersey Oil Syndicate.

A BIG PUMPKIN, BUT SHE WON'T COOK IT

No Use Speculating On
How Many Pies It
Will Make

Robert Brasel found an enormous pumpkin on his farm in the Arnold community and brought it to the office of Dr. C. E. Scott. Now everybody is trying to figure out how much the pumpkin weighs, how many pies it will make and how much it would cost to cook it.

The weight of the pumpkin has been guessed at forty to fifty pounds, but nobody seems to know just how many pies could be made from it. That would depend on how thick the pies would be, or how thin the pumpkin would be. Cooking pumpkin is almost a lost art, especially in the city, where fuel is not as cheap as it used to be in the days of the old farm woodlot.

Anyhow cooking pumpkin on the farm was usually an all-day job, but the results were certainly pleasant. Those old fashioned pumpkin pies, made with plenty of milk and eggs, were something to dream about. Seeing that pumpkin in Doc's office started the writer on a train of thought that led right back home.

He got to wondering whether the present-day city housewife could be persuaded to cook that pumpkin, even if somebody wanted to pay the fuel bill. It's a hot job, cooking pumpkin, and then there's the running it thru the collender, and the mixing—. But, gosh! are we hungry!

What'd you say, Ma? You won't cook the pumpkin. All right, get a can from the store and let's have some pies for Sunday dinner. Maybe if you season 'em up a bit and use plenty of pumpkin, they'll taste like old times. What? No, I'm not finding fault with your cooking, but I just got to thinking—now, now, I never meant anything. Sure, you make the best pies in the country. Ah, hang that pumpkin, anyway! Make it into a jack o'lantern for the kids.

GILLHAM FUNERAL HOME

JACKSONVILLE, ILL.

Dear friends:

It is to the advantage of all concerned if the funeral director is called as soon as possible after death occurs. The reason for this, we are sure, is obvious.

In that connection we believe it is wise to decide in advance of need what funeral director is to be called. This helps to avoid confusion and possible misunderstanding.

In any case, the family should always have the privilege of choice.

Respectfully,

Blueboy Eleven Battles To Scoreless Tie Against Wheaton

Notre Dame Noses Out Carnegie Tech By A Blocked Kick

Irish Keep Slim Margin Of Victory, 7-6, In The Waning Moments

Pittsburgh, Oct. 28. —(AP)—Again that extra point looked big as a billion as Notre Dame scored its fifth straight victory of the year over Carnegie Tech, 7-6, before a thrilled crowd of 68,000 in Pitt stadium today.

This time it was Lou Zontini, fleet Irish halfback, who carefully lined up his sights and place kicked that vital seventh point after the Irish had scored their touchdown on a recovered fumble in the third period.

The blocked kick was the tightly-fought contest, after Carnegie had made a brilliant march of 89 yards to its touchdown, it was John McIntyre, tall center of the South Bend opportunists, who smashed thru and blocked George Muha's attempt at the tying point.

In scoring five victories, Notre Dame now has amassed a total of only 15 more points than its defeated rivals.

For a game that started out so soberly—neither team made a single first down up to the half—this one packed a bumper crop of excitement in the second half, when the two defenses appeared to tire under the punishment and the backfielders ran wild.

Each team made four first downs, all of Tech's coming in the course of its touchdown drive. Total yards gained were 160 for Notre Dame, 157 for Carnegie. It was that close.

Santa Clara Trims Purdue Eleven, 13-6

San Francisco, Oct. 28. —(AP)—The Santa Clara Broncos bucked the steam out of the Purdue Boilermakers today and won an intersectional football upset, 13 to 6.

After a scoreless first period, Purdue drew first blood as Michael Byelene, substitute halfback, heaved a 35-yard pass from his own 37 to David Rankin, end, who stepped over the Santa Clara goal from the two. The try for point was blocked.

Louis Brock and Jack Brown were Santa Clara's eight, but from scrimmage Santa Clara rolled up 159 yards and Santa Clara 25 from penalties.

Louis Brock and Jack Brown were the powerhouses in the Purdue backfield, which wasn't often, it took field, and when they were able to get half the Santa Clara team to bring them down.

A slim crowd of 8,000 sweltered with the football players in the mid-summer sun.

Augustana Downed By Bradley, 14 to 0

Rock Island, Ill., Oct. 28. —(AP)—Bradley Tech opened its bid for the Illinois College conference grid title today with a 14-0 victory over Augustana college.

It was Bradley's 15th victory in their last 18 games the other three contests ending in ties. Kenny Olson set up the first score with a 49-yard run. Don Case went for the score. The second touchdown was scored by Olson.

Bradley registered 12 first downs to Augustana's five and rolled up 206 yards from scrimmage to Augustana's 35.

DUKE-WAKE FOREST

Durham, N. C., Oct. 28. —(AP)—Wake Forest's demon Deacons gave Duke a good dose of power football today but the more versatile Blue Devils nosed out a win over the battling Deacons 8 to 0.

Duke had been favored to win, and came through, but most of the 16,000 spectators had expected to see some "home-run" scoring instead of a tight battle.

STATE NORMAL

Bloomington, Ill., Oct. 28. —(AP)—State Normal, after playing three straight scoreless ties, found its offense today to push across two touchdowns and defeat Southern Illinois Teachers, 14 to 7.

It was Southern's second loss in the Illinois Intercollegiate conference and Normal's first victory in the league.

WESTERN TEACHERS

Macomb, Ill., Oct. 28. —(AP)—Western Illinois Teachers defeated Eastern Teachers, 20 to 7, today to become the first Illinois Intercollegiate conference team to win two games.

It was Eastern's first loss of the season after having won three and tied one.

Georgia is the largest state east of the Mississippi river.

Penn Is Defeated By North Carolina

Philadelphia, Oct. 28. —(AP)—After marching 68 yards in 12 plays to match Pennsylvania's first-period touchdown, a quick-on-the-trigger North Carolina football team turned four Penn mistakes into three second-half touchdowns and a field goal to rout the Red and Blue 30-6, today before a crowd of 55,000 in Franklin field.

Leading the Tarheel victory parade were Jim (Sweet) Lelanee, 165-pound pass pitcher from Lafayette, La., and Carl Sunthelmer second-string center from Hattboro, Pa. It was Lelanee who, in three two scoring passes and ran 30 yards for another tally, and it was Sunthelmer, a roving center who covered the field, who dropped on two Penn fumbles that led to scoring plays.

Lelanee didn't play much in the first half—just about long enough to complete three aeriels, the last of which, to Paul Severin, a stand-out end, went for 12 yards and a touchdown.

But the Louisiana lad started the second half, and stayed in long enough this time to turn an even ball game into a runaway.

Los Angeles, Oct. 28. —(AP)—Ceferino Garcia, the Filipino bolo-puncher, and Hurricane Henry Armstrong signed up today to fight Feb. 22 for Garcia's share of the world's middle-weight championship.

The Hollywood Post of the American Legion will promote the 10-round contest—the first middleweight bout of note here since Mickey Walker defeated Ace Hudkins for the title in 1929.

MARQUETTE

Milwaukee, Oct. 28. —(AP)—A Marquette football team that looked hopelessly outclassed in the early stages came back to defeat the University of Arizona 13 to 6 today before a homecoming crowd of 10,000.

EUREKA-MCKENDREE

Eureka, Ill., Oct. 28. —(AP)—Eureka lost its fifth consecutive grid game of the season today, bowing to McKendree 6 to 0, in a game featured by defensive brilliance.

Queen Reigns Over Football Field

When the Jacksonville high school Homecoming Queen walked upon the field Friday, the football officials and players did as all loyal subjects should do—bowed and placed themselves at her command. Above the queen, Miss Mary Ator, is about to toss a coin to

determine which goals Jacksonville and their rival, Beardstown, are to defend. In the photograph, left to right, are: Headlinesman Atherton; A. H. Chapman, Winchester, the umpire; Capt.

Clyde Vasconcellos of J.H.S., Referee J. Russell Shields, Greenfield; Miss Mary Ator, the queen; Capt. Don Goff of Beardstown; Miss Joan Lukeman and Miss Lucille Kumble, the queen's maids of honor.

Bluffs Bluejays Will Open Basket Season At Chapin

First Skirmish Scheduled For Nov. 18; Book Ten Games At Home

Bluffs, Oct. 28.—Bluffs Bluejays are already eyeing their basketball schedule, which starts off Nov. 18 with a tilt with Chapin. The Jays will play 10 home games.

Conference games have been scheduled with Griggsville, Pittsfield, Pleasant Hill and Winchester. Rushville and Mt. Sterling are newcomers on the schedule this season.

Bluffs lost three regulars by graduation last spring. They are Leroy Goodin, guard; Howard Rolf, center, and George Dunham, forward. The squad will include several seasoned veterans and promising new material. Season tickets will go on sale next week.

The schedule follows:

Nov. 18—Chapin here.
Nov. 22—Mt. Sterling here.
Dec. 5—Milton here.
Dec. 12—Ashland here.
Dec. 12—Rushville here.
Dec. 15—Griggsville here.

Feb. 6—Pleasant Hill here.
Feb. 9—Milton here.
Feb. 13—Winchester here.
Feb. 16—Open.
Feb. 20—Pleasant Hill here.
Feb. 23—Ashland here.
Feb. 28 to March 2—Regional tournament.

Iowa U. Rallies To Wallop Wisconsin

Madison, Wis., Oct. 28. —(AP)—Nile Kinnick pitched three touchdowns passes to give Iowa's Hawkeyes a 19 to 13 victory over a hard-fighting University of Wisconsin football team before a Dad's Day crowd of 21,000 today.

The 170-pound halfback from Omaha, Neb., also added one extra point to account for all of Iowa's score. He was equally impressive on defense, intercepting three passes when the Badgers threatened.

His three scoring aeriels went for 19, 39 and 24 yards, respectively. He flipped the first to Quarterback Al Coupee in the second period; the second to Dick Evans, reserve end, in the third quarter—each time bringing Iowa within one point of the Wisconsin total, and then, with the Hawkeyes trailing 13-12, hurled the winning pass to William Green, reserve fullback, in the final period.

NAVY-CLEMSON

Annapolis, Md., Oct. 28. —(AP)—A rugged and alert Clemson football team, turning on just a little more heat to make up for the absence of Banks McFadden, its stellar ball carrier, rolled back the Navy eleven here today, 15 to 7.

Approximately 18,000 spectators, ruffled by a gusty wind which made toys of punts, saw the hardy southerners score a touchdown and a safety margin to 15 points with another in the first period, increase their touchdown in the fourth quarter, falter slightly thereafter to permit the Middles to score, and then dig in again to repel any further threats.

COLUMBIA-V. M. I.

New York, Oct. 28. —(AP)—Columbia's football Lions broke into the victory column for the first time this season today, downing Virginia Military Institute 28 to 7, but it was one of the "Brother Rats" from the South who turned out to be the hero of the proceedings.

With two minutes left Bosh Pritchard decided this was the time to howl. Columbia kicked, and Bosh backed to his own five yard line to take the punt. He cut across to the right and ran 95 yards for the Cadets' lone tally. Paul Shu added the point.

Tigers Lose Game to Missouri Team, 13-6

Fulton, Mo., Oct. 28.—The Missouri School for the Deaf football team defeated the Illinois School for the Deaf team of Jacksonville, Ill., this afternoon by a score of 13 to 6.

OKLAHOMA

Norman, Okla., Oct. 28. —(AP)—Oklahoma's undefeated Sooners, picking up speed and power week by week, crushed the Oklahoma Aggies, 41 to 0, today before a crowd estimated at 28,000, largest in the 34-year history of the teams' gridiron rivalry.

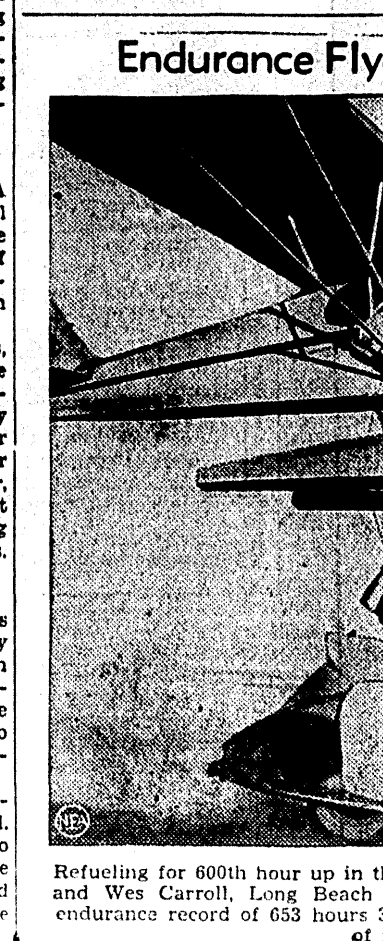

It took the Big Six champions all of the first period to warm up to their task but once they started rolling, the Aggies were helpless before their slashing ground attack and aerial sharp-shooting which rang the touchdown bell six times.

TULANE GREEN WAVE

New Orleans, Oct. 28. —(AP)—The mighty Tulane Green Wave, featuring Jitterbug Bob Kellogg, turned on the power again today and deluged the University of Mississippi Rebels, 18 to 6, before a homecoming crowd of 5,000.

Winchester Beaten By Roodhouse, 13-6

Contest At Winchester Is Decided In Last Period

Winchester, Oct. 28.—Winchester's high school eleven lost to Roodhouse here today 13 to 6, with both sets of gridlers playing a brand of ball that was almost "even Stephen."

For the first quarter record, there was no activity around either goal post, but in the second period, Forrester passed to Whitney on Winchester's three yard line for the initial Roodhouse score. Both teams made a touchdown in the final quarter.

Winchester's marker came on a pass from McLaughlin, a sub, to Peak, the latter running 30 yards for the score. Roodhouse also counted on a ten yard run by Crabtree.

Michigan Crushes Yale Eleven, 27-7

Ann Arbor, Mich., Oct. 28. —(AP)—With Engineer Tom Harmon at the controls, Michigan's football steam roller crashed Yale 27 to 7 here today before a crowd of 53,719 spectators.

Harmon, the Gary, Ind., thunderbolt, scored three of the four Wolverine touchdowns, added three extra points, gained a total of 203 yards in 18 tries from scrimmage (more yardage than Yale accumulated all afternoon) and otherwise annoyed the Elis, who were playing in the middle west for the second time in their long and glamorous football history.

The victory, fourth straight for Michigan, left the Wolverines the only undefeated team in the Western Conference.

Yale Eleven, 27-7

It was a violent spectacle full of fumbles, fights, penalties and surprises, and the 32,318 spectators gorged themselves on the feast.

The first half was Pitt's, the Panthers driving 60 yards for a touchdown the first time they got the ball and the scoring again on a pass 25 seconds before the half to lead 13 to 6.

But they were outguessed, outkicked, and outplayed right down the line in the second half as Fordham tied the count in four minutes of the third period on a pass that gained 48 yards and won with great aplomb in the final stanza on a 29-yard touchdown drive with a fumble by right end Vince Demery and another score on a short buck by Don Principe.

N. CENTRAL-ELMHURST

Naperville, Ill., Oct. 28. —(AP)—North Central College and Elmhurst College fought to a 7 to 7 tie today in an evenly matched football game.

North Central scored in the second period on a pass from Bill Shatter to Barrett Saville who ran 30 yards for a touchdown. Shatter kicked the extra point. Elmhurst scored in the last period on an end around play by Don Rosback. Aubuchon converted.

NORTHERN TEACHERS

DeKalb, Ill., Oct. 28. —(AP)—The Milwaukee Teachers College and the Northern Illinois State Teachers College football teams battled to a scoreless tie today.

The Milwaukee team gained more ground than its foe and chalked up 15 first downs to its opponent's two, but was unable to pierce the Northern Illinois line when it dug in to protect its goal.

LAKE FOREST-MILLIKIN

Deatur, Ill., Oct. 28. —(AP)—Lake Forest handed Millikin an Illinois College Conference defeat today, 16 to 9, with a strong first half attack that netted two touchdowns and a 16-yard field goal.

It was Lake Forest's first league victory in three games.

Homecoming Crowd Sees The Wildcats Blank Illini, 13 to 0

First Half Scoreless; Illinois Eleven Lacks Scoring Force On Ground

Evansville, Ill., Oct. 28. —(AP)—Northwestern's Wildcats, gaining momentum as the season rolls along, bowled over Illinois, 13 to 0, today before a homecoming crowd of 35,000. The defeat of the Illini was their third in four games, their opener with Bradley Tech resulting in a scoreless tie.

After a drab, scoreless first half, mighty Paul Soper, Northwestern's 170 pound left halfback from Muskegon, Mich., broke the battle midway of the third period after a pass interception. He crashed through left guard and galloped 74 yards down the edge of the field for a touchdown.

Desperate Plunge

George Rettinger, Illinois' safety man chased him down the field, falling flat on his face on the 10 yard mark in a final desperate plunge to bring the galloping Wildcat down. Don Clawson, sophomore fullback from Kankakee, Ill., added the extra point from placement.

William John De Corvoent, famous prep star checked in carrying the ball 13 times for a net total of 16 yards, nevertheless, punted, and passed beautifully. He completed four out of eight for 36 yards.

After another pass interception in the fourth period, De Corvoent shot a 22 yard pass to Ted Greff, end, who in his drive to the Illinois goal stepped out of bounds on the 3 yard line. De Corvoent attempted to score on the next plunge, but was stopped on the one. Then Clawson plunged over for the touchdown, scoring standing up for the second score. His placement for the point hit the left upright.

Illinois, having no offensive on the ground, took to the air in the closing minutes of the game to make their most serious scoring threat.

Ohio State Upset By Cornell, 23 to 14

Columbus, Ohio, Oct. 28. —(AP)—Courageous Cornell spotted Ohio State a pair of touchdowns today, and then roared from behind with a dazzling display of gridiron leggedness to win, 23 to 14, before 49,583 half-frozen fans.

The Ivy League champions winning their fourth straight contest, butted the Bucks off the road to football fame and rolled up more points than any team has been able to score against Ohio since Francis A. Schmidt became coach here six years ago.

The stunning setback was Ohio's first of the year, and came as a decided upset on the heels of Buckeye victories over Missouri, Northwestern and mighty Minnesota.

Press Search For Winnie Ruth Judd

Phoenix, Ariz., Oct. 24.—(AP)—Still without a clue to Winnie Ruth Judd's whereabouts on the fourth day since the mad killer fled from the Arizona insane asylum, authorities pressed their inquiry into events at the hospital preceding her escape.

Working on the theory Mrs. Judd had help in escaping, Sheriff Lon Jordan started a search for a former hospital employee described as "very

friendly" with the 34-year old trunk murderer. The sheriff said the man "felt bitterly" about his discharge five months ago.

Dr. Louis J. Saxe, hospital superintendent, questioned all employees in an effort to find some clue. Sheriff Jordan's deputies watched the residence of the Rev. and Mrs. H. J. McKinnell, Mrs. Judd's parents, whom she visited after fleeing late Tuesday night.

Attorney General Joe Conway asked Peoria, Ill., police to question a former Phoenix pastor who told a Peoria newspaper he was present when plans for the escape were discussed five weeks ago.

Don't Put All The Taxpayers' Eggs in One Basket

The interests of all the taxpayers of Morgan County, as well as the interests of all those who must depend on the taxpayers for their daily bread, are served best when both political parties are represented on the County Board. Not only that, but no mistake is made when county finances are kept in the hands of honest and experienced men whose business ability has been demonstrated.

One Term of Efficient Service DESERVES Another

Erwin Aufdenkamp is the only Republican member of the present board. He is a farm owner, a dairyman and a substantial taxpayer. His record as a commissioner is commendable. He knows county problems and finances. The public welfare will be served by his election for another term on November 7th, but he may not be elected unless all citizens who favor keeping county affairs in the hands of a divided board go to the polls and vote. Make up your mind now to do this and to vote for Erwin C. Aufdenkamp in the interest of justice and impartiality.

exempt, 21 years of age and under 65, in possession of his or her natural faculties, not infirm or decrepit, free from all legal exceptions, of fair character, of approved integrity, of sound judgment, well informed and able to understand the English language.

In Morgan county the Board of County Commissioners on or before the first of September of each year

prepares the jury list. This is known as the ten percent list because it consists of not less than ten percent of the legal voters of each precinct in the county. From this list, the commissioners select the grand jury in a manner prescribed by law. Also from this list the circuit clerk draws by lot, the names of persons who are summoned to appear as petit jurors when a panel is needed. Jurors are summoned five days before they are needed and failure to appear except after a reasonable excuse has been accepted by the judge is considered contempt of court and treated accordingly.

Challenging a Juror
"Counsel for one side or other may challenge a prospective juror either for cause or peremptorily. He may be excused if he has served as a juror within one year or has a suit pending at the same term of court. The fact that a juror has read of the case in a newspaper or heard it discussed, but has formed and expressed no opinion as to the merits of the case, does not disqualify him as a juror if upon oath he can swear that he can render a fair and impartial verdict based on the facts as brought forth from the evidence presented."

"Women have much to learn about this democratic institution which men for years have taken for granted as their privilege, and more important, as their duty. The second meeting of the League's jury school is calculated to help in this learning process."

Huge Neon Sign On Power Plant Stack Has Been Completed

Lighted Letters Visible For Many Miles; Erected By Lindy Sign Company

The Lindy Sign Company has com-

pleted what is believed to be the largest neon sign in this section of the country and is one of the very few of its kind in operation anywhere. The sign was designed and built for the local Illinois Iowa Power Co., and erected on the north side of the company's 175 foot smoke stack facing the square from busy South Main street of this city. Reading: "Illinois Iowa Power Co." in letters 5 feet, 4 inches high with a 16 inch stroke starting within 2 feet of the top and coming within 35 feet of the ground.

The huge letters were first painted on the surface of the concrete chimney in white and outlined in black, and then overlaid with neon tubes which are held in place on extended glass supports which are held to the chimney with steel screws. Although the stack is located at one of the lowest points in the city the light from the neon letters can be seen many miles on the highways coming into Jacksonville. The sign is powered with eleven transformers which have a secondary voltage capacity totaling 76,000 volts, and will consume less than 1 kilowatt of current per hour. A steel service ladder weighing over 1,500 lbs., has been erected aside from the entire sign to hold all service cable transformers and to make the sign accessible to future service.

The entire sign was produced in the local sign company's plant in three weeks, with local labor. All work on the stack, and installation being done from a block and tackle swing by L. H. Lindstromberg.

Perry Is Freed Of Murder Charge

(Continued from Page One)

are holding Perry because they had no one else to hold. "Can anyone think of a chief of police making such a statement to children?"

The attorney made reference to the testimony of Lina Kinney and of her testimony concerning her talk with Kenneth Miles about the identity of the knife. Parish spoke definitely about the pants the defendant wore, but "I'd like to know how in the world he would tell them from any other pants." Olga Perry sat in the dark and yet she describes her father's clothing, the attorney said. She also said she was at her home at 9:30, and she is the only witness that places the defendant at that home at ten o'clock.

Mrs. Durbin made the statement that she saw Perry come out of his home at 10:10 P. M. The state's witnesses tell the truth except those who saw him between 9:30 and 10 o'clock, according to the defense, said Flynn, Ransom and Mrs. Price saw him earlier but not later than the defense says. That singular circumstance caused Perry to go to Olga Perry's. It was a hot night and yet he took the long way around. He was seen going down State street and then Mrs. Price saw him. Then Ransom saw him later in the park. He gave two friends a drink that night but never gave them a drink before. He then goes by the police station and sees that Officer Stout sees him. Officer Stout says he never saw him go that way before.

The Shawen children tell about a gun and then Misskin comes and tells about seeing a gun. Perry says he loved Mrs. Shawen and saw her daily yet says he was not jealous. Harry Perry was the only person who murdered Mrs. Shawen Flynn said in closing.

Defense Attorney Gruney made the first argument for the defense claiming the Shawen children had a feeling of bias and hatred toward Perry, and "yet Leta Crouse and her husband and Perry and Mrs. Shawen went to a pageant at the Illinois School for the Deaf together." "Is this any sign of quarrelling," he asked. They took the knife to the park, went to the show together.

Leta Crouse said she would get even with Perry and Marie Looker, another daughter, told of a quarrel that took place five years ago. The trouble with this case, said Attorney Gruney, is that the defendant was accused long ago.

Admits Quarrel
Marie Looker admitted that she and Perry quarrelled. If Perry followed Mrs. Shawen and threatened her why didn't she call the police, Gruney asked. "I think you know, he didn't force himself upon her."

Mrs. Shawen's son said that seven years ago he felt a gun in Perry's pocket. It was not seven years ago when a gun was fired. How correct is Wiley's judgment? He said Perry lived at Mrs. Shawen's two weeks, and Perry said five and one-half years. The son rented a home that was almost in Perry's backyard, said the defense attorney. "Do you think she was trying to get away?" "Does it sound like violent quarrelling and misunderstanding?" Mrs. Price says Perry was at the southeast corner of the square at 9:30 o'clock. Mrs. Winners and Mrs. Boylan say he was down by their home at that time. "You heard Schenz testify about Mrs. Winners' eyes."

Then Mrs. Winners says it was 9:45 o'clock when she saw Perry come back. They say the shooting took place at 10:10. People across from Perry's home say there were four men living in that house. And would it be sensible to go back to the alley after Mrs. Osburn said she had close association for twelve years with Mrs. Shawen and she never heard of any quarrels.

Then they have "Bessie the bicycle rider, who spends three hours and twenty minutes on a bicycle," said Defense Attorney Ray Gruney. Why didn't she go to the Campbells who resided nearby, instead of going to the park when her mother-in-law didn't answer? When she saw the glare in the woman's eyes what did she do but go to the Campbells? And instead of going to the Shawen home they go to the police. "Why? The answer to that is not here."

Manufactured Alibi
What did Bessie Shawen mean after testifying at preliminary hearing when she said, "I got by with it that time?" Attorney Gruney then asked how Perry could manufacture an alibi when the police had not told him of the murder. "How could he invent an alibi if he didn't know when the murder was committed?" Gruney also claimed that Miles and Goldman identified the knife by different blades, and he said Dr. DeRyke said he hadn't been sharpened recently. He also charged they had not traced the knife to Perry, and that they had not introduced a gun.

Attorney Gruney asserted they didn't have to place the defendant on the stand, charging the defense could have used circumstances and proved their case. In speaking of disinterested witnesses he referred to the testimony of the Parishes who resided across the street from the defendant and of the evidence presented by Misskin, McGinnis and others.

The attorney pointed to the testimony of Olga Perry and Lina Kinney as "ringing true," saying that if Mrs. Kinney had wanted to manufacture an alibi about the time Perry was at the Olga Perry home she could have. Olga's story hasn't been challenged and can't be challenged, Gruney charged.

The stories of Ed Dunavan, George Lamb, Elmer Cowdin and Howard Stout check this man's alibi perfectly, Gruney stated. "You heard Harry Perry's story on the stand. You have the right to judge how his story checks with the others. Isn't it reasonable for children to stand by their parents?" Remember, said Attorney Gruney, Harry Perry's statement until moved guilty beyond a reasonable

Perry went back on the stand for eight minutes under direct examination when court resumed Saturday morning. He described the location of his daughter's home with reference to streets and alleys and street lights. Then he denied that he ever called Mrs. Marie Looker a "D— hussy" and that he had ever employed Wiley Shawen to work for him, although they had both been employed at the same place once.

"No Sir" Perry answered when Attorney Hugh Green asked him in rapid order whether he came out of his home between 9:30 and 10:30 p. m. the night of July 5, whether he ran across the alley between the Shawen home and his rooms, whether he walked east through the alley, and whether he went past Steele's tavern between 10:30 and 11:15 p. m., as the state contends.

"I never did" he said when asked if he had ever had in his hands the knife which the state has had admitted as evidence in the case. He declared he didn't put it in the cistern at his daughter's home.

"No" the defendant said when asked by his attorney whether Mrs. Shawen had at any time during the past year and a half attempted to break off relations with him.

Gives Personal Description
Attorney Robinson asked Perry a number of questions regarding his person when he began his cross examination, to which Perry responded that he was 68 years of age, weighed 175 pounds, a little more now than usually, and was half an inch short of six feet tall. He said he was a farmer until 12 years ago, when he came to Jacksonville and began working for a number of people, doing various types of work.

He met Mrs. Shawen about 15 years ago, he said. He was introduced to her by a cousin of Mrs. Shawen's on the public square, and saw her several times on the square. He said he began keeping company with Mrs. Shawen 13 or 14 years ago when he was living on the farm. He said that neither he nor Mrs. Shawen, both of whose mates were living, had obtained divorces, and that both had families. He said that 11 of his children were living.

The first year he went with Mrs. Shawen he said he saw her about once a week, while both were still living with their respective families. The visits increased in frequency he said, until he finally moved to the Shawen home in February, 1927. He said he lived in the Shawen home until 1932.

Lives Why He Left
Asked by the cross examiner why he left the Shawen home, he said that after he had been living there a couple years a gold chain and gold knife disappeared from his trousers. Mrs. Shawen at that time told him, he said, that she would "bet Ernie done it." About a year later he said \$3 in bills he had hidden under a table cover on the dresser in his room disappeared. Again about two weeks before he moved away, he said, \$19 and Mrs. Shawen had a \$5 bill taken at the same time.

Mrs. Shawen offered to make restitution, Perry said, but he told her she couldn't afford to do that. Perry said he moved around some after leaving the Shawen home, and that Mrs. Shawen visited him at each of his rooms, sometimes at night and sometimes in the daytime, except at his Hardin avenue home. Mrs. Shawen never did come to the Scott home during the night, he added. He said he continued to visit her almost daily, sometimes in the afternoon and sometimes at night, at her home.

Asked if he loved her, Perry said he did. He said the time he began keeping company with her, he admitted that he didn't intend to marry her, stating that neither of them had obtained divorces. A defense objection to a question as to whether he had illicit relations with Mrs. Shawen was sustained for the time being, and never was re-asked during the remainder of the cross examination.

Perry said he didn't believe Mrs. Shawen went out with other men. He denied that he had ever asked anyone to watch Mrs. Shawen for him. He said he had known Eliza Hayes about two years, and that he had never asked Hayes to watch Mrs. Shawen, who he said he did ask Hayes one day when Mrs. Shawen had gone to lunch from the PWA sewing room at the Illinois School for the Deaf.

Did Not Suspect Rival
"I did not" Perry answered positively when asked if he thought Mrs. Shawen had other men friends. He said he had never talked with Ted Coates, who lived in the same home with the Shawens at 340 West Court street. He also denied that he had asked Coates if he could sit on his front step to watch Coates' truck.

He later explained his conversation with Coates, stating that he had asked Coates if he might sit on his step, and added that his reason was that some of Mrs. Shawen's family had returned home on June 17 in a taxi. He said Wiley Shawen left home that night without taking his supper when his wife came into the house with two Shawen girls. Perry said he told Coates that someone almost hit his truck when they came into the yard that evening. Coates, called as a rebuttal witness by the state, confirmed this conversation.

Perry said he had been in the alley near Steele's tavern several times at night, but denied that he was near Mrs. Price's home the night Mrs. Shawen was killed. Perry said that Mrs. Shawen had told him which way she was going home, and that she was not looking for him, a point over which there was a sharp exchange of words without altering the testimony.

Perry also said that he did not see anyone when he left Mrs. Shawen at the alley and West Court street the night she went to the party which preceded her murder.

Whistle Evidence Questioned
Perry was questioned closely as to his movements, saying that he heard a whistle "which seemed to come from the east" at 9 p. m., and that he looked at his watch. The whistle might have been from the Illinois School for the Blind. The state summoned John Clancy, chief engineer, who testified that the whistle at the school for the Blind was not sounded

at 9 p. m., in the summertime, but was used when school was in session as a signal for the students to go to bed. The defendant said that he didn't remember meeting anyone he knew after he left the park on the way to his daughter's home, no did he remember meeting anyone on the way back to the square. "I know practically every one who hangs out in the park though," he said. He said the reason he didn't knock at the door of his daughter's home was that he knew she had been to a meeting and would be home sometime around 9:15 and 9:30 p. m. He wanted to talk to her about canning some beans which he had ready for preserving.

He described in some detail the manner in which the top was placed on the cistern, but said he had never paid particular attention to it. He said he had taken care of the yard and garden at the rear of the Perry home for about two years.

Wasn't Suspicious When Arrested
"No, I wasn't suspicious when Williams told me that the chief wanted to speak to me," he said in answer to another query. "I never did ask why they wanted me," he said, because he thought the chief had some reason for wanting to know about his movements. "I didn't know what had happened to Mrs. Shawen until he told me."

Mrs. Shawen moved to the home at 340 West Court street on June 10, about a month before she was killed. Perry said he went over every afternoon for awhile so that Mrs. Shawen could rub liniment on a shoulder in which he had rheumatism. He said he usually went across the alley when he visited her.

Questioned about the windows in his room, he said he couldn't be certain which ones were up and which ones were down on the night of July 5 and the morning of July 6. He declared he went to bed at midnight and awakened at 5 a. m. the following morning and did not hear any commotion in the yard back of the Shawen home during the night.

The court took a 36-minute recess during which attorneys went to the judge's chambers. Court resumed at 10:45 a. m., with Perry still on the stand. He said he had owned a gun since 1911-12 and that he had a conversation with W. F. Misskell regarding a gun which the state alleges Perry had at that time. Misskell was later produced as a rebuttal witness and testified that in June, 1937, he had seen Perry cleaning a gun in his room at the Misskell house. Under cross-examination Misskell said he had never seen Perry with a gun either before or after that time.

Perry was on the stand only two minutes after court resumed following the recess. The defense immediately began calling character witnesses, which Judge Wright said he would limit to twelve.

Character witnesses were asked to tell of Perry's general reputation as to being a peaceable and law abiding citizen prior to the return of the indictment of July 21, 1937.

Character Witnesses
W. H. Weatherford, Meredosia, formerly sheriff, and assessor and treasurer of Morgan county, said he had known Perry for 40-45 years, Effie Allen, housewife of 823 East College avenue, said she had known him for 3 years, and under cross examination that she had been asked to testify by Miss Olga Perry. Perry had worked for her she said. Scott Green a farmer east of Jacksonville, who has known Perry about 45 years, Ursula Benson, 607 North Prairie street, bookkeeper at Proctor's factory, said she had known him 20-22 years; John Heaton, farmer, 10 miles southwest of Jacksonville, had known him about the same length of time; Mrs. William T. Hudson said she had known him 20 years and that he was not a customer of the Modern Dairy which her husband operates; Austin Patterson who said he lived three miles northwest of Jacksonville on a 200 acre farm, and that Perry had worked for him at times during their 20 year acquaintance; W. H. Self, of Jacksonville, who had known Perry 20 years; and Albert Holmes, southeast of Jacksonville, who said he had known Perry since 1907, all testified that his general reputation was good.

Other character witnesses included Jeanette Pratt, Jacksonville, who said she had known the defendant 30-35 years, Charles D. Scott, veterinarian, who said he had known Perry for 35 years, and Earl Cox, farmer of route 3, who said he had known Perry about 40 years.

The defense introduced as evidence clothing Perry was said to have worn on the night of the murder, and it was accepted, although there was a momentary objection to entering under a hat to the evidence. The objection was withdrawn by the state. The evidence included the Barlow knife. The defense rested its case at 11:31 a. m.

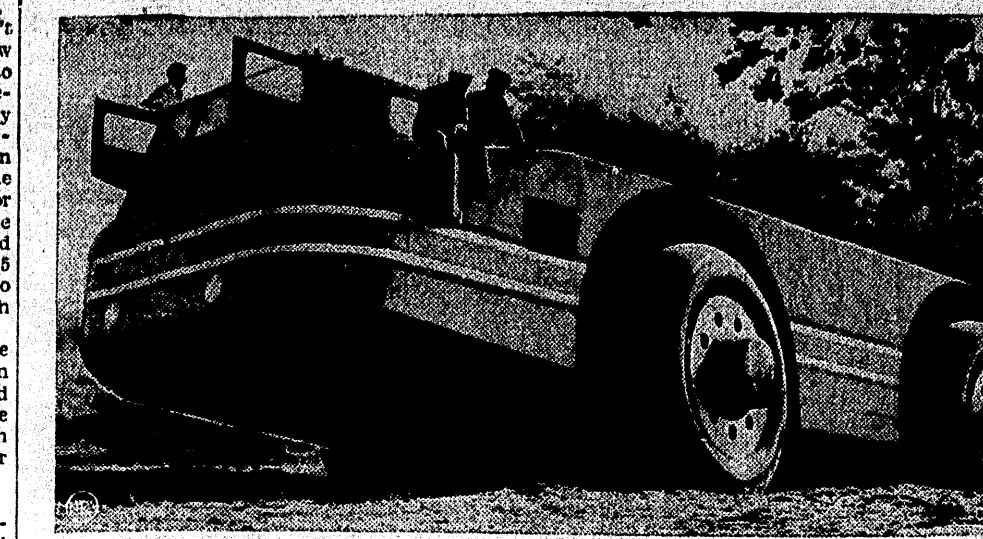

Begin Rebuttal
State's Attorney Oscar Zachary began calling rebuttal witnesses, producing first John Clancy who testified as to the times whistles are sounded at Illinois School for the Blind where he is chief engineer. Hugh Green cross examined and established that Mr. Clancy did not personally sound the whistle.

W. F. Misskell testified that he saw Perry cleaning a revolver at his room at the Misskell home in 1937, but said he had never seen Perry with a gun before or since that time.

Ted Coates, brought in to testify regarding the conversation Perry had with him on the night of June 17, "My birthday," Perry said. Coates related that Perry had asked him if he could take the car with another man. This took place at the Illinois School for the Deaf, he said. Under cross-examination Hayes said he never saw Mrs. Shawen get into any car with another man.

The final witness in the case was William P. Lagers of White Hall, who said he accompanied Attorney Flynn and Guy Durbin to Quincy shortly after July 5, 1937. Asked if Durbin had said he saw Perry leave his home a few minutes after Mrs. Shawen was slain he said he had. On cross-examination Lagers said he had been in the car for three or four years.

Chandlerville, Oct. 28.—Members of the Order of Eastern Star entertained on Friday evening at the Masonic rooms. Mrs. Carl Whipsom of Rushville, district deputy, was the guest of honor at initiation ceremonies, with other members of the Rushville order and also members from the Eastern Star organization of Havana.

Committee members in charge of the arrangement for the ceremony and dining room decorations of autumn leaves with pumpkin lanterns were Miss Mae Ahnsworth, Mrs. Amelia Hill, Mrs. Luther Warner, Miss Dorothy Wilson, Miss Margaret Clegg, Miss Irene Ahnsworth, Mrs. Juan Baker, Mrs. Harry Plunkett, Mrs. Baxter, Mrs. Harry Plunkett, Mrs. Elsworth Frankenkfield, Mrs. Elizabeth Hiernan and Miss Carrie Belle Abbott.

Gives Hallowe'en Party
Mrs. Miles McDonald was hostess to her Sunday school class at a Hallowe'en party on Wednesday evening at the Congregational church.

Miss Katherine Mae Wahfield entertained with her Sunday school class on Friday evening at the Congregational church at a masquerade frolic. Elizabeth Lynn represented a pink elephant; Jean Waddell, an old witch; Katherine Davis, a Negro witch; Robertine Reitzel, a ghost; Dorothy Daniels, a paper sack pixie; Shirley Daniels, Orphan Annie; Dorothy Cook, a ghost witch; Billy Joe Deering, a tramp; Mary Lee Beck, a clown; Margaret Dick, a scarecrow; and Lillian Capper, a Little Old Fashioned girl.

Fortunes were given by Dorothy Jean Dyson and a Hallowe'en message by Mary Lee Beck. Bobbing apples were in charge of Lillian Capper.

A ghost walk through the dark rooms of the church was led by Miss Wahfield past a white ghost standing on the pulpit.

Prizes for best impersonations of characters were awarded to Robert Reitzel, as the spookiest, to Lillian Capper, as the best little girl, and to Billy Joe Deering for the "Tramp." Miss Mary Louise Dorr

for the Blind did not sound in the summer time.

Then, as Chief of Police Frank Kiloran was testifying, a whistle sound on a train and the sound was plainly discernible in the court room. Attorney Hugh Green paused in his questioning to let the full effect of the whistle be heard in the court room. He asked the chief if the whistle sounded like the blind school whistle, to which the chief answered that it did not. The chief admitted that trains blow their whistles frequently when going through Jacksonville.

Dr. J. J. Schenz, local optometrist, who said he had been practicing since 1922, was the first of four witnesses to testify at the afternoon court session. Dr. Schenz testified that on May 2, 1932 and on Nov. 18, 1932 Mrs. Margaret Winners, one of the state's witnesses, had been to his office and he had examined her eyes. He found one eye with no vision and the other with but 25 per cent vision. After correction with the use of lens she had 68 2/3 per cent vision in one eye. Asked if he knew what her vision was on July 5, 1937, Dr. Schenz said he did not.

Mrs. Winners testified at the hearing that she had seen Harry Perry on the evening of July 5, 1937, about 9:30 p. m., a short distance behind Mrs. Shawen.

A. B. Nance, telegraph operator, who operates a railroad tower here placed on the stand by the defense to testify concerning the sound of the whistle at the Illinois School for the Blind and those used by the railroads, said there was a similarity of sound.

Asked if the whistles are used by the railroad regularly he said they were irregular but in continuous service day and night.

One of the final witnesses in the case was Eliza Hayes, who testified for the prosecution. He told the jury that Perry had asked him about a year ago to watch Mrs. Shawen and see if she got in the car with another man. This took place at the Illinois School for the Deaf, he said. Under cross-examination Hayes said he never saw Mrs. Shawen get into any car with another man.

Livestock Market
Remains Unsettled

Chicago, Oct. 28.—(P)—Lagging demand for dressed meat, with some pork prices at wholesale sharply lower, unsettled the livestock market this week. Hogs lost 35 to 60 cents per hundred weight and lambs 35 to 60 cents but cattle were higher.

Most quotations were on a nominally steady basis today with only a few hogs weighing 200 to 300 pounds and grading medium to good selling at \$8.60 to \$7.70. Choice kinds were not on sale but were quoted at \$6.80 or better, this being equal to yesterday's top. Average price yesterday was \$6.54 compared with \$7.05 a week ago and \$7.83 a year ago. The closing hog top was the lowest since just prior to the outbreak of war in Europe.

The sharpest break in wholesale pork loins since the price crash following the September war boom occurred this week. Wholesale loins dropped 41 cents a pound to 15 1/2 while other pork cuts lost 11 to 21 cents.

All grades of steers scaling 1,000 pounds downward gained 15 to 25 cents during the week while choice and prime medium weight and heavies were steady to strong. The extreme top of \$11.35 was paid for yearlings.

The late top for native lambs was \$9.50 while the week's early top was \$9.90.

New York Stock Market

New York, Oct. 28.—(P)—The stock market retreated sharply today after an initial bounce upward.

Volume dwindled following a moderately fast opening and leader sank behind fractions to around 2 points.

Brokers said the decline was due more to absence of buying sentiment than to any pressure of offerings.

Traders, disappointed that yesterday's late rally wasn't followed up, held off from positions with the week-end in mind. Sales approximated 500,000 shares.

Some aircraft, steels and motors were up at the start, prodded there by surprise at the extent of the administration's victory in the senate over the repeal of the arms embargo. It was believed generally the house would follow the senate's action, but by a lesser margin.

STAMP NEWS

THE visit of Nicaragua's president, Gen. Anastasio Somoza, to the United States last May, is to be commemorated in a group of 12 stamps for release in November.

Six stamps will carry the inscription "Good Neighbors," and will show President Somoza addressing the U. S. Senate. On May 8, the Nicaraguan chief executive hailed the friendship of the Americans in speeches to both House and Senate.

Three values will show a portrait of Somoza, inset with a picture of the U. S. Capitol. The final group of three show the republic's president between the New York World's Fair, Trolley and Perisphere and the San Francisco Exposition Tower of the Sun. The stamps will be issued in domestic and international sets.

Germany has overprinted 14 Danzig stamps to indicate Nazi occupation and control. Twelve of the stamps are of the shield design and two of the castle design, recently issued. Surcharge of three other sets was also predicted.

Ecuador has approved a law authorizing the issue of a 5-centavo stamp, to be required on all mail in addition to regular postage, to raise funds for the construction of postoffices in the various Ecuador states. Design and color of the stamp have not been announced.

New issues: Greece, four values for Pan-Balkan Games; Bohemia and Moravia, five values, showing leaves and berries of native Czech fruit.

Judge Wright, Oscar Zachary To Address League Jury School

Mrs. Joe Patterson Smith Explains Facts, History Of Jury Service

Circuit Judge Walter W. Wright and State's Attorney Oscar Zachary will speak to the women of Morgan county Thursday, November 2, at 3 p. m. in the circuit court room in the court house, under the auspices of the Morgan county League of Women Voters.

Judge Wright will speak on "What a Judge Expects of a Good Juror," and the State's Attorney's subject will be "The Function of a Grand Jury." This session will be the second meeting of a jury school sponsored by the League to give women an opportunity to inform themselves in their responsibility for jury service.

State of Facts Mrs. Joe Patterson Smith, official of the League, has issued a statement of facts necessary for efficient service as a juror. Much of this background was presented in a forum conducted by the organization recently at the David Smith house, Illinois College, for its members. It will serve as a guide for those unable to attend the school and also provide an intelligent basis for those who will hear the addresses of Judge Wright and State's Attorney Zachary. The statement follows:

"The Illinois League of Women Voters has set the education and training of women for jury service as one of its responsibilities this fall. The objective of making women intelligent jurors fits into the League's program of promoting a greater knowledge of and fuller participation in government by women."

"The most firmly rooted of the fundamental principles of our nation and of all our states. This means that no one shall forfeit life or lose his freedom or his estate without a trial by his peers or equals. Along with the privilege of our voting franchise came the duty and responsibility of serving our country as jurors."

Voting Amendment "Women have been legal voters in all elections, since the adoption of the nineteenth amendment to the Constitution of the United States, August 26, 1920. The courts of a number of states construed this extension of the voting franchise as qualifying women for jury service without further legislation; other states required and enacted enabling legislation."

"Although jury duty is dependent on the right to vote, the Illinois supreme court in 1925 held that the present Jurors Act which requires the lists of jurors to be made up from 'electors' and 'voters' did not apply to women, having been enacted in 1874 before women came within such definitions. Repeated efforts were made to have legislation passed in Illinois making women eligible for jury service. In 1926 the General Assembly amended the state law to include women as well as men on the jury lists, subject to referendum. These amendments were approved by the voters November 4, 1930, and for a short time women were called for jury service. However, the Supreme Court later declared the referendum feature illegal. In intervening years other bills were introduced in the legislature but were defeated. The sixty-first General Assembly passed the 'women jurors bill'—an amendment to the Jurors Act and another amendment to the Jurors Act which also went into effect July 1, 1933. The Supreme Court passed on the constitutionality of these amendments and women in Illinois join those of many other states eligible to serve as jurors."

Types of Jury Laws In the operation in the United States: the permissive law and the compulsory law. Arkansas, Delaware, Kansas, Kentucky, Louisiana, Minnesota, Nevada, New York, North Dakota, Oregon, Rhode Island, Utah, Washington, the District of Columbia and Alaska permit women to serve or to decline to serve under numerous exemptions. Women are called for jury service on an equal basis with men in California, Connecticut, Indiana, Iowa, Maine, Michigan, New Jersey, Ohio, Pennsylvania and Illinois.

"The same exemptions apply for women as for men. In general, persons employed in an official capacity in the state, county or city and most persons engaged in necessary professional pursuits may be excused. Exemptions of a special sort for women, because of responsibility for the care of a family or other dependents, are left to the discretion of the court."

"In Morgan county there are two types of juries which are important. The Grand Jury, an investigating body which has to do with criminal offenses, meets regularly twice or three times a year, though it may be summoned at any time for special sessions. It consists of twenty-three persons possessing qualifications as jurors. Sixteen of these jurors must be present when the evidence is presented (usually by the state's attorney) and twelve must agree to the finding if a bill of indictment or 'true bill' is returned. The grand jury holds closed sessions to which witnesses, one at a time, may be summoned. An added responsibility of the grand jury is the semi-annual inspection of the county jail. The petit jury is the trial jury for civil and criminal cases. It consists of twelve citizens, residents of the county in which the case is being tried. Both sides of a case are presented before the petit jury. The verdict must be unanimous."

Jury Eligibility "To be eligible for jury service a man or woman must be an inhabitant of the county, town or precinct, not Continued on page 7"

KNIGHTS OF PYTHIAS WILL HOLD REGIONAL MEETING OCTOBER 30

Knights of Pythias will hold a district meeting Monday, October 30 at Springfield Lodge No. 14. The meeting is scheduled to begin at 8 p. m. The local members of K. of P. have been urged by the regional secretary, LeRoy C. Neff, to attend this meeting.

Two People Injured Yesterday In Auto Accident On S. Main

Richard Dobson and Mrs. W. G. Ricks of Roodhouse Sustain Injuries

Richard Dobson of this city and Mrs. Walter G. Ricks of Roodhouse were injured in an auto accident which occurred Saturday afternoon on South Main street near the Barnhart grocery store. Dobson received a cut on the lip and was taken to Passavant hospital by Deputy Clinton Stromwater and was attended by Dr. Allyn Wolfe.

Mrs. Ricks sustained head injuries and a bruise on the shoulder. She was considerably shaken by the accident and was attended by Dr. Ellisworth Black. Mr. Ricks, driving the auto, was not injured.

The accident occurred when Mr. and Mrs. Ricks were driving toward the city. Dobson was driving south when the collision occurred. The left side of the Ricks car and the left front of both the Ricks and Dobson cars were damaged in the accident, the police department reported.

Indianapolis Man Stricken And Dies In Field Saturday

Arno Johnson Vivian, 42, Drops Dead at Hobbs Farm Near Woodson

Arno Johnson Vivian, 42 years old, a business executive at Indianapolis, Ind., died suddenly from a heart attack Saturday morning at the farm of G. W. Hobbs, three miles southwest of Woodson, where he was spending the week end.

Vivian was stricken while walking in a field where he was training several bird dogs. He was accompanied by Catherine L. Shannon of Chicago, who hurried to the Hobbs home and called him.

Vivian was office manager of the Periodical Publications Service Bureau at Indianapolis. John Hobbs, is employed by the same company, and was to have joined Vivian at the farm for the week end.

The Indianapolis man took a bird dog and three pups to the Hobbs farm for training. He appeared in usual health when he started through the fields about 10 a. m., but fell to the ground and died within a few seconds.

Coroner Elmer Sample held an inquest at the Hobbs residence, the jury returning a verdict of death from an acute heart attack. Witnesses were Catherine L. Shannon and G. W. Hobbs. It was brought out in testimony that the deceased had been subject to heart disease for several years.

Jurors were Thomas E. Conlon, Catherine Hobbs, Esther Murphy, Merle Hellwell, Timothy Murphy and Charles Spaulding.

Vivian's remains were taken to the Thompson Funeral home at Murrayville, pending communication with relatives. The remains probably will be sent to Detroit, Mich.

The decedent is survived by his mother, and a brother in Detroit.

Plan Examination Of Applicants For Pension Visitors

State Department Prepares To List Up Eligible In Counties

Examinations to establish eligible lists for the position of visitor in all downstate counties will be held by the Division of Old Age Assistance this fall, according to announcement Saturday by Fred Deatherage, pension superintendent in this county.

The locations of the examinations for the various counties have not yet been announced.

Applicants must be graduates of high school or have had equivalent training; must have had employment in a public or private welfare agency, employment as a teacher in a private or public school and holding at least a limited state elementary certificate, employment as a nurse in a private or public agency and holding a state license to practice, employment as an interviewer in a state or federal service, or employment as a county agricultural extension or home demonstration worker in a private or public agency.

Applications must be sent not later than Saturday, Nov. 11, to the Division of Old Age Assistance, Department of Public Welfare, at Springfield. Application blanks may be secured from the Morgan county office at the court house.

Mr. Deatherage said Saturday that 898 Morgan county persons received old age pension payments for this month, totaling \$15,202, or an average of \$16.93.

COMMITTEE PLANS FOR ADDRESS BY HYGIENE SPEAKER

The Jacksonville Social Hygiene committee will meet Tuesday, October 31, for a luncheon meeting at the Dunlap hotel to make plans for November 7th, when Mrs. Margaret Wells Wood will speak in Jacksonville. Tentative plans have been made and invitations will be sent to representatives of the medical society, presidents of Federated Women's clubs and health chapters of the Federation and others particularly interested in the work of the Social Hygiene committee. Rev. Morgan Williams is chairman of the committee.

Mrs. Wood is a National Health chairman in the Federation of Women's clubs. Reports will be made concerning the work which has been accomplished since Mrs. Wood was in Jacksonville early in the spring.

MRS. ROBERT STARK HAS FRACTURED HIP AS RESULT OF FALL

Mrs. Robert Stark, 209 South Prairie street, is under treatment at Passavant hospital for a fracture of her right hip, sustained as the result of a fall in her home. Mrs. Stark stepped upon a rug which slipped on the hardwood floor, causing her to fall.

The fracture was reduced by Dr. F. A. Norris, and Mrs. Stark was reported to be doing as well as can be expected.

Joy Prairie Couple United In Missouri

Hester Florence Ehrich and Sam M. Challiner Wed In Rites Saturday

Florence Ehrich, both of the Joy Prairie community, were united in marriage at Paimyra, Missouri, Saturday afternoon at 4:30.

The single-ring ceremony was performed by Rev. C. L. Dorris, pastor of the Methodist church. The couple was attended by Hester Ehrich, brother of the bride and Miss Bernice Wilding, cousin of the groom.

The bride was attired in grape-colored crepe with brown accessories. She wore a shoulder corsage of white clusters and tea roses. The maid of honor wore cinnamon toast crepe with black accessories. Her corsage was of tallman roses.

Mrs. Challiner is the daughter of Julius Ehrich of Joy Prairie. Mr. Challiner is the son of Mrs. Kate Challiner, also of the Joy Prairie community.

The couple will reside on a farm near Joy Prairie.

New Winchester Fire Truck Ready To Protect Town

Tests Show Pumper Capable Of Hard Service; Get Hose and Ladders

Winchester, October 28.—The new fire truck recently purchased by the city of Winchester arrived this week. It is an International truck purchased from the Walker Implement Company, and the Howe Fire Apparatus Co., of Anderson, Indiana mounted the equipment.

The equipment consists of a 500 gallon Waterous pump, 1200 feet of 2 1/2 inch hose, purchased from the Fabric Fire Hose Co., of Sandy Hook, Conn., one 200 gallon booster tank, 200 feet of booster hose, one Foamite Chemical Tank, 16 foot roof ladder and one 32 foot extension ladder. With the aid of the new equipment and added 200 pound pressure is given. At the factory test the pumper on the truck pumped 500 gallons of water a minute, meeting the approval of the National Board of Fire Underwriters. The truck is so equipped that it can pump water out of a cistern or well if necessary. Roy Ryeas is fire chief of the Winchester volunteer fire department.

R. R. Funk, mayor of the City, announced today that a number of improvements have been made to the city hall, where the trucks will be kept. The south cell of the city jail has been destroyed to make additional room for the new truck and the entire floor has been concreted and a mud trap installed. An overhead door has been purchased and will be installed in the near future. A drying rack for the hose will be erected on the south side of the building.

University Women Hear Dr. Jameson

"Comparative Folklore" Is Subject of Address at Session Saturday

The November meeting of the Jacksonville branch of the American Association of University Women was held Saturday afternoon at the David Smith house, Illinois College. Mrs. F. B. Oxtoby, president, opened the session.

Mrs. Ernest Savage, secretary, read the minutes of the last meeting, also an invitation from the Chicago branch to a luncheon on Friday, Nov. 3, at 12:30 o'clock at the Urbana Country Club. The general director, Dr. Kathryn McHale will be the guest speaker at that event.

Mrs. Lawrence Crawford reminded the members about the book tea to be held Friday, Nov. 17. Members are asked to donate volumes for this event to which the public is cordially invited.

Mrs. Oxtoby then introduced Dr. Raymond Jameson, speaker for the afternoon, who addressed the members on "Comparative Folklore."

"Folklore," said Dr. Jameson, "is ubiquitous. It is in the community. It is in the customs which are now a part of the festivities of life and death. It is a dangerous science, a science of error that leads us to find the science of truth. Folklore makes us all members of a great entity. It holds us together."

There are many methods by folklorists to try and understand the subject, Dr. Jameson pointed out. There are those who differentiate between true and false, those who attempt to find the living originator of the tale in history. There are the mythical groups, the scientists, the psychologists and the members of the finished school, the finalists, who believe the tales in folklore had to be told for the first time, sometime, somewhere.

IN MEMORY

In memory of our dear father, Geo. H. King, birthday Oct. 29th, who passed away last December. Nothing but memories as we journey on.

Longing for a smile from our loved one who has gone. None know's the depth of our deep regret. But we remember when others forget.

Gravel roads are said to be the hardest on automobile tires.
